

Large Bore Equipment Interconnect Piping— *Fabrication Facility in Caldwell, Texas*

Project Overview

Evers & Sons Inc. was responsible for the procurement, fabrication, NDE, hydrotesting, stenciling, and delivery of all piping and materials required for field installation.

We fabricated large- and small-bore pipe headers, along with interconnecting pipe spools for multiple areas of the project—achieving approximately 112,000 weld inches. In addition, we assembled hydrotest bolt-up packages for the client's procurement, which included blinds, bolts, gaskets, and adjustable pipe supports.

Scope of Work:

- Procurement
- Fabrication
- NDE (Non-Destructive Examination)
- Hydrotesting
- Stenciling
- Delivery

Components Fabricated:

- Large- and small-bore pipe headers
- Interconnecting pipe spools
- ~112,000 Weld Inches

Additional Scope:

- Created hydrotest bolt-up packages for client procurement, including blinds, bolts, gaskets, and adjustable pipe supports.
