

Modular Equipment Piping— *Fabrication Facility in Caldwell, Texas*

Project Overview

Evers & Sons Inc. handled the fabrication, NDE, hydrotesting, and delivery of mechanical piping for this project, achieving approximately 100,000 weld inches.

In addition, we worked closely with the engineering team to incorporate variable changes during fabrication, helping to minimize additional fieldwork and maintain project efficiency.

Scope of Work:

Fabrication, NDE (Non-Destructive Examination), Hydrotesting, Delivery

Work Completed:

~100,000 Weld Inches

Additional Scope:

- Collaborated with the engineering team to incorporate variable changes during fabrication, reducing the need for extra work in the field.

Company Overview

Evers & Sons Inc. is a third-generation, family-owned midstream energy construction company providing services across Facilities, Fabrication, Pipeline, Maintenance, and Decommissioning & Asset Abandonment. Together, our integrated divisions provide solutions that build, support, and sustain the energy infrastructure across the United States.
