

Compressor Maintenance Upgrade

— Texas

Project Overview

Evers & Sons Inc. provided maintenance, structural, and piping modifications to support the upgrade of nine compressors within an existing facility. The project included installation of new compressor cylinders, suction and discharge bottles to improve compression performance and reduce vibration.

Scope of Work:

- Demolition of existing on-skid compressor piping, compressor bottles, and structural steel components
- Fabrication and installation of new on-skid compressor piping to accommodate new cylinder/bottle arrangements
- Structural steel fabrication and installation
- Epoxy grouting of bottle supports

Field Installation - Stats:

- ±75 cubic feet epoxy grout
- ±6 tons structural steel
- ±100 pipe spools
- ±200 linear ft. pipe – from 1" to 6"
- ±500 welds
- ± 4,600 shop weld inches
- ±1,000 field weld inches
- 210 flange torques

Company Overview

Evers & Sons Inc. is a third-generation, family-owned energy services company providing services across Engineering, Facilities, Fabrication, Pipeline, Maintenance, and Decommissioning & Asset Abandonment. Together, we connect engineering expertise with proven field execution to help our customers plan smarter, build efficiently, and operate with confidence.

Amine Tower Replacement

— Louisiana

Project Overview

Evers & Sons' Maintenance Division supported a major equipment upgrade at a Gulf Coast processing facility. The project included multidisciplinary coordination across mechanical, scaffolding, insulation, and outage activities to safely replace two aging towers with modern stainless-steel units designed for long-term reliability. This upgrade enhanced overall system efficiency and extends asset life, helping the facility maintain dependable performance for years to come.

Key Equipment:

- (2) 78" ID × 75' seam-to-seam, stainless steel amine regeneration still

Scope of Work:

- Plant outage coordination
- Demolition
- Mechanical piping
- Mechanical equipment installation
- Equipment insulation
- Piping insulation
